PROFILE

Junior software developer with passion for designing and implementing intuitive digital solutions, I have hands-on experience in software development and UI/UX design, focusing on creating user-friendly interfaces and seamless user experiences. Adept at working collaboratively in diverse teams and eager to align my technical proficiency, global perspectives and creativity with the company's vision, leveraging past roles and innovative projects to contribute to meaningful technology-driven projects.

WORK EXPERIENCE

Tallinn University School of Digital Technologies
Junior Software Developer and UI/UX Design Intern
02/2024 - 06/2024   **Tallinn, Estonia**

- Researched decision-making platforms and identified usability challenges.
- Created wireframes, mockups, and a high fidelity prototype for user-friendly interfaces.
- Conducted usability testing and refined designs based on feedback.
- Collaborated with stakeholders to integrate feedback and refine interfaces.
- Developed responsive interfaces using ReactJS and MUI.
- Assisted in backend development and managed decision-making data.
- Participated in code reviews and collaborated using Git.

EDUCATION

Strathmore University
Strathmore Graduate

01/2020 - 06/2024   **Nairobi, Kenya**

- First Class Honors

Riara Springs Girls High School
HighSchool Student

01/2016 - 11/2019   **Nairobi, Kenya**

- Grade : A-
- Student leader in various capacities

PROJECTS

PhilathroLink
Junior UI/UX Designer (Tallinn University)

04/2024 - 06/2024   **Tallinn, Estonia**

- Enhanced UX/UI at PhilanthroLink, a crowdfunding platform, by creating a high-fidelity prototype, showcasing seamless user journeys and interface interactions, elevating platform professionalism.
- 🔗 **https://github.com/digital-explorers-2/philanthro-link**

Decision Maker
Junior Software Developer and UI/UX Designer (Tallinn University)

03/2024 - 06/2024   **Tallinn, Estonia**

- At Decision Maker, a decision-assisting mobile app, I held dual roles as a Junior UI/UX Designer and Junior Software Developer. I created a high-fidelity prototype, highlighting user journeys and interface interactions, and contributed to the app's software development for a seamless user experience

SwaLUKE
Junior Full-Stack Developer (Strathmore University)

04/2023 - 11/2023   **Nairobi, Kenya**

- A language translation project connecting Luhya and Swahili speakers. I served as a Junior full-stack developer and designer, leading front-end and back-end development. Utilizing advanced natural language processing (NLP), I contributed to building a translation platform, while also designing an intuitive interface for user engagement across both languages
